THE PROCEEDINGS OF THE PHYSICAL SOCIETY

FROM JANUARY 1936 TO NOVEMBER 1936

VOLUME 48

Published by
THE PHYSICAL SOCIETY
1 Lowther Gardens, Exhibition Road
London, S.W. 7

Printed at
THE UNIVERSITY PRESS, CAMBRIDGE

PRINTED IN GREAT BRITAIN

OFFICERS AND COUNCIL, 1936–1937

President:

T. SMITH, M.A., F.INST.P., F.R.S.

Vice-Presidents:

Who have filled the Office of President.

SIR OLIVER J. LODGE, D.SC., LL.D., F.INST.P., F.R.S.
SIR J. J. THOMSON, O.M., SC.D., F.INST.P., F.R.S.
PROF. SIR CHARLES VERNON BOYS, LL.D., F.INST.P., F.R.S.
PROF. C. H. LEES, D.SC., F.INST.P., F.R.S.
PROF. SIR W. H. BRAGG, K.B.E., M.A., F.INST.P., F.R.S.
ALEXANDER RUSSELL, M.A., D.SC., F.INST.P., F.R.S.
SIR FRANK E. SMITH, K.C.B., C.B.E., D.SC., F.INST.P., SEC. R.S.
PROF. O. W. RICHARDSON, M.A., D.SC., F.R.S.
W. H. ECCLES, D.SC., F.INST.P., F.R.S.
PROF. SIR A. S. EDDINGTON, M.A., D.SC., F.R.S.
PROF. A. O. RANKINE, O.B.E., D.SC., F.INST.P., F.R.S.
THE RIGHT HON. LORD RAYLEIGH, M.A., SC.D., LL.D., F.INST.P., F.R.S.

Vice-Presidents:

T. S. WHIPPLE, M.I.E.E., F.INST.P.
PROF. W. WILSON, D.SC., PH.D., F.R.S.
D. OWEN, B.A., D.SC., F.INST.P.
J. H. AWBERY, B.SC., F.INST.P.

Hon. Secretaries:

EZER GRIFFITHS, D.SC., F.INST.P., F.R.S.
ALLAN FERGUSON, M.A., D.SC., F.INST.P.

Hon. Foreign Secretary:

PROF. O. W. RICHARDSON, M.A., D.SC., F.R.S.

Hon. Treasurer:

R. W. PAUL, M.I.E.E., F.INST.P.

Hon. Librarian:

J. H. BRINKWORTH, D.SC., A.R.C.S., F.INST.P.

Ordinary Members of Council:

W. JEVONS, D.SC., PH.D., F.INST.P.
H. Y. BAKER, B.A., F.INST.P.
PROF. J. A. CROWTHER, M.A., SC.D., F.INST.P.
PROF. G. I. FINCH, M.B.E., F.INST.P.
E. SHAW, D.SC., A.R.C.S., F.INST.P.
PROF. H. R. ROBINSON, D.SC., PH.D., F.INST.P., F.R.S.
MISS M.O.SALTMARSH, PH.D., F.INST.P.
L. F. BATES, D.SC., PH.D., F.INST.P.
L. HARTSHORN, D.SC., A.R.C.S.
PROF. G. F. J. TEMPLE, D.SC., PH.D., F.INST.P.
PROF. A. F. C. POLLARD, A.R.C.S., F.INST.P.
C. V. DRYSDALE, C.B., O.B.E., D.SC., M.I.E.E., F.INST.P.

Editor of the Proceedings:

CAPT. C. W. HUME, M.C., B.SC.

CONTENTS

Part 1. *January* 1, 1936.

PAGE

W. W. Barkas. Wood-water relationships: (1) molecular sorption and capillary retention of water by Sitka spruce wood 1

B. V. Rollin. A combined hydrogen and helium liquefier 18

R. K. Asundi and R. Samuel. Absorption spectra of the chlorides and oxy-chlorides of sulphur 28

B. H. Crawford. The integration of the glare effects from a number of glare sources 35

F. L. Warburton. The discrimination of the saturation of colours . . . 38

S. Tolansky. Fine structure in the (^{2}D) series limit terms of the I^+ spectrum . 49

A. J. Maddock. Absolute intensities in the spectrum of a low-pressure quartz mercury-vapour discharge burner 57

J. McGarva Bruckshaw. Experiments on conducting laminae in periodic magnetic fields 63

T. Smith. An optical calibration problem 75

H. Levy and J. C. Gascoigne. On the combination of observational data . . 79

G. I. Finch and S. Fordham. The effect of crystal-size on lattice-dimensions . 85

C. J. B. Clews. A determination of the specific heats of aqueous solutions of potassium chloride 95

A. E. Bate. The conductivity of an orifice in the end of a pipe 100

A. J. Lewis. The absolute measurement of the viscosity of liquid tin . . 102

Denis Taylor. On the current-distribution in a loop aerial 111

J. H. Awbery. Temperature-rise in a material of which the thermal properties vary with temperature 118

N. L. Yates-Fish. A negative-resistance oscillator 125

A. Simons. The measurement of very low relative humidities 135

Professor H. Hartridge. The effect of phase-change on the cochlea . . 145

Geo. P. Barnard. The dependence of sensitivity of the selenium-sulphur rectifier photoelectric cell on the obliquity of the incident light, and a method of compensation therefor 153

J. L. Ch'en and W. Band. The longitudinal thermoelectric effect: (6) mercury . 164

William Band and Y. K. Hsü. The thermomagnetic properties of nickel: Part 2 168

A. E. Bate. Dust figures formed by an electric spark 178

F. F. P. Bisacre. Some preliminary notes on diffraction gratings . . . 184

T. Carlton-Sutton, H. R. Ambler and G. Wyn Williams. Thermochemical properties of nitrous oxide 189

Demonstration of a relay for operating two circuits alternately with delayed action 203

Reviews of books 208

Part 2. March 1, 1936.

PAGE

LORD RAYLEIGH. Presidential Address: Some reminiscences of scientific workers of the past generation, and their surroundings 217

E. N. DA C. ANDRADE and Y. S. CHIONG. On the determination of viscosity by the oscillation of a vessel enclosing a fluid: Part 1 247

E. N. DA C. ANDRADE and LEONARD ROTHERHAM. On the determination of viscosity by the oscillation of a vessel enclosing a fluid: Part 2 261

H. STAFFORD HATFIELD. A method of investigating the Hall effect . . . 267

S. G. KRISHNAMURTY. Regularities in the spectrum of trebly ionized iodine . 277

E. O. HERCUS. The effect of dissolved air on the specific heat of water over the range 15° to 20° C. 282

H. J. TAYLOR and V. D. DABHOLKAR. The ranges of α particles in photographic emulsions 285

K. E. SPELLS. The determination of the viscosity of liquid gallium over an extended range of temperature 299

R. C. BROWN. The ripple method of measuring surface tension 312

R. C. BROWN. A method of measuring the amplitude and damping of ripples . 323

R. NAIDU and R. E. SIDAY. The β-ray spectra of some induced radioactive elements resulting from neutron bombardment 332

Reviews of books 337

Part 3. May 1, 1936.

A. BLACKIE, C. W. OCKELFORD and C. M. CAWLEY. Some thermal and electrical aspects of the design of converters for the hydrogenation process . . 339

W. G. ILES and KATHLEEN WORSNOP. The behaviour of a single-hair hygrometer under varying conditions of temperature and humidity 358

J. H. AWBERY and E. GRIFFITHS. The viscosities of some liquid refrigerants . 372

R. W. POWELL. The thermal and electrical conductivities of metals and alloys: Part 2, some heat-resistant alloys from 0° to 800° C. 381

G. TEMPLE. The mechanical force on bodies of small susceptibility due to induced magnetization 393

W. D. WRIGHT and J. H. NELSON. The relation between the apparent intensity of a beam of light and the angle at which the beam strikes the retina . . 401

R. W. POWELL. The use of thermocouples for psychrometric purposes . . 406

K. E. GREW and B. E. ATKINS. Thermal diffusion in deuterium mixtures . . 415

E. C. HALLIDAY. The accurate determination of ionospheric equivalent heights . 421

H. T. FLINT. On the development of the quantum equation and a possible limit to its application 433

SIR R. T. GLAZEBROOK (the late). Note on the three absolute systems of electrical measurements 444

SIR R. T. GLAZEBROOK (the late). The fourth unit of the Giorgi system of electrical units 452

J. R. ASHWORTH. The properties of Heusler's alloy, and the true specific heat of manganese and its discontinuity 456

PAGE

W. A. Leyshon. On a new type of electronic oscillator tube with parallel plane grids 469

F. C. Harris and B. R. Seth. The variation of double refraction in celluloid with the amount of permanent stretch at constant temperature and at different temperatures 477

L. R. G. Treloar. A method of measuring secondary-electron emission from filaments 488

H. Sheard. The thermal constants of setting concrete 498

F. Llewellyn Jones. Electron energies and excitation in the helium positive column 513

Demonstration 527

Reviews of books 528

Part 4. *July* 1, 1936.

S. Weintroub. Intensities in the principal series of lithium 535

H. M. Barlow. An experimental investigation of the validity of Ohm's law for metals at high current-densities 549

W. Jevons. Ultra-violet band-systems of SiCl 563

R. A. Hull. Transmission of light through a pile of parallel plates 574

W. W. Barkas. Wood-water relationships: (2) the fibre saturation point of beech wood 576

N. R. Campbell, H. R. Noble and L. G. Stoodley. Time lag in photoelectric cells 589

E. C. Atkinson. The relation between rate and arc for a free pendulum . . 606

E. C. Atkinson. On Airy's disturbance integrals and knife-edge supports for pendulums 618

M. Jan-Khan and R. Samuel. Absorption spectra and photodissociation of some inorganic molecules 626

J. R. Tillman. Some experiments with neutrons having thermal energies . 642

P. B. Moon. On the passage of neutrons through paraffin wax 648

P. B. Moon. Note on the neutrality of the neutron 658

E. Tyler. Experiments with a new type of ripple tank 659

L. F. Bates, R. E. Gibbs and D. V. Reddi Pantulu. The magnetic properties of manganese heated in nitrogen 665

Reviews of books 672

Part 5. *September* 1, 1936.

H. L. Wright. The size of atmospheric nuclei: some deductions from measurements of the number of charged and uncharged nuclei at Kew observatory . 675

J. E. R. Constable. The effect of an acoustically absorbent lining upon the sound-insulating value of a double partition 690

W. H. Hoather. The density and coefficient of expansion of liquid gallium over a wide range of temperature 699

PAGE

NORMAN CAMPBELL. The determination of absolute units 708

WILLIAM COCHRANE. The structure of some metallic deposits on a copper single crystal as determined by electron-diffraction 723

PROFESSOR W. WILSON. The mass of a convected field and Einstein's mass-energy law 736

L. C. JACKSON. The paramagnetism of the rare-earth sulphates at low temperatures 741

CHARLES FABRY. Vision in optical instruments 747

E. T. S. APPLEYARD. The phenomenon of spreading in the first positive bands of nitrogen 763

H. LIPSON and C. A. BEEVERS. An improved numerical method of two-dimensional Fourier synthesis for crystals 772

L. F. BATES and A. BAQI. The magnetic properties of chromium 781

L. F. BATES and L. C. TAI. The magnetic properties of amalgams 795

Reviews of books 810

Part 6. *November* 1, 1936.

PROFESSOR F. A. LINDEMANN. Physical ultimates 815

F. LLEWELLYN JONES and W. H. WILLOTT. Secondary emission from copper due to slow positive ions of argon 830

F. T. FARMER and J. A. RATCLIFFE. Wireless waves reflected from the ionosphere at oblique incidence 839

V. J. JEHU. The electrical conductivity of barium chloride and its variation with temperature 850

G. MOLE. The ignition of explosive gases 857

S. H. W. H. FALLOON and F. T. FARMER. A self-synchronizing time base for the distant observation of wireless pulse transmissions 865

J. S. PRESTON and F. W. CUCKOW. A photoelectric spectrophotometer of high accuracy 869

SIR CHARLES VERNON BOYS. My recent progress in gas calorimetry . . . 881

F. A. WALCH. The constancy of the velocity of sound at sonic frequencies . 899

J. E. R. CONSTABLE. Vibration of a building partition at audio frequencies . 914

J. E. R. CONSTABLE and G. H. ASTON. The vibration pattern of a wall transmitting sound 919

Obituary Notices:

SIR JOHN CUNNINGHAM MCLENNAN 924

JOHN PARKE KIRKMAN 928

SIR RICHARD TETLEY GLAZEBROOK 929

Reviews of books 934
